BUILDING PRODUCTS, INC.

Building A Strong Foundation

Aluminum Tubes

Roll forming maintains higher tolerances, welded seams improve structural integrity.

Lightweight roll formed welded aluminum tubes are the preferred choice in a variety of end-use products for both consumer and industrial applications. As an expert in roll formed products, Amerimax combines state-of-the-art manufacturing with exacting quality tolerance to provide a superior product. With roll formed aluminum tubes stocked nationwide to meet your production requirements, Amerimax delivers convenience and exceptional customer value.

BENEFITS:

- 18% lighter than .040 aluminum extrusion
- High strength to weight ratio
- Custom lengths available
- Consistent dimensions and gauge
- Nationwide distribution
- Three dimensions available in .032 mill finish:
 - 1.0" x 1.0"
 - 1.0" x 1.5"
 - 1.5" x 1.5"
- Excellent corrosion resistance
- Enhanced mechanical properties
- Non-combustible (no toxic fumes emitted when exposed to high temperatures)
- Thermal conductivity (ideal for heat exchange applications)
- Weld ready (no surface coating)

Call Amerimax today 800-448-4033.

Aluminum tubes provide a lightweight structural alternative with high tensile strength characteristics.

Roll formed aluminum tubes are designed to meet a variety of customer specifications for different industry applications.

Applications

TRANSPORTATION

- Recreational Vehicles
- Cargo Trailers
- Truck Caps
- Snowmobile Trailers

RECREATION

- Marine
- Sprint Car Wings
- Dog Boxes
- Hunting Tree Stands/Ladders

RESIDENTIAL/COMMERCIAL

- Fencing
- Railings
- Store Front Awnings
- Carports
- Modular Offices
- In-Plant Offices

PRODUCT PROMOTION

- Retail Displays
- Kiosks
- Signage
- Trade Show Displays

STORAGE

- Shelving Systems
- Shipping Containers
- Portable Sheds

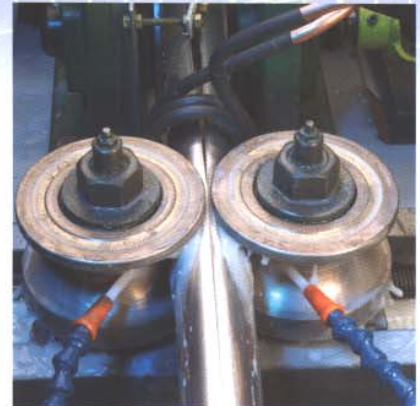

Product Dimensions:

- Gauge: .032 Mill Finished Aluminum
- Available Sizes:
 - 1.0" x 1.0"
 - 1.0" x 1.5"
 - 1.5" x 1.5"
- Specifications and mechanical properties available upon request.

Amerimax's rolled aluminum tubes are ideal for applications which require tight tolerances. Years of expertise in metal fabrication and stringent manufacturing standards ensure the consistency of our aluminum tubes.

Our electro heat vacuum tube welder produces a structurally strong weld with a uniform appearance.

Amerimax's state-of-the-art production methods, precision engineering and our commitment to quality ensure your products get delivered as promised.

You can depend on Amerimax Building Products for the highest level of quality, service and value. We are dedicated to providing our customers with solutions in metal fabricated products.

Call Amerimax today at 800-448-4033 for product samples and a Technical Bulletin.
