

design/build BUSINESS

MARCH 2003

the resource for architects, builders and design/build firms

Amerimax Building Products announces the introduction of the new Corbel end cuts and Classic Fiberglass Round columns for the Alumawood shade structure product line. Maintenance-free Alumawood shade structures provide the look of authentic wood without any of the real wood maintenance issues. Each component is engineered to assemble with a flawless fit, and every detail has been carefully considered to provide a natural wood appearance.
