

Amerimax Building Products, Inc. is a leading manufacturer of laminated sandwich panels. Amerimax utilizes a variety of reactive hot-melt structural urethanes with state-of-the-art equipment and processes to produce a wide array of sandwich panels for commercial, industrial, transportation and agricultural applications. Sandwich panels can be produced with a broad range of custom facing and core material combinations up to 8' x 50'. Whatever the application, we have the laminated panel solution. Below are examples of some of the applications in which our panels have been used.
