We Build Profitable Relationships

Experience You Can Build On

Amerimax Building Products, Inc. is a division of Euramax International, Inc., a leading international producer of value-added aluminum, steel, vinyl and laminated products for original equipment manufacturers, distributors, contractors and home centers in the U.S. and Western Europe. With over fifty years of experience, Amerimax has established itself as a premier supplier assuring its customers of quality products delivered on a timely basis while providing outstanding value. Our dedicated team of professionals will help you solve whatever manufacturing challenges you may have. Amerimax's commitment to state-of-the-art production facilities, precision engineering and intensive quality control ensures your business receives the value you deserve.

Quality You Can Count On

The Amerimax name has stood for quality, value and innovation for over fifty years. We offer our customers the utmost in quality control with an in-house staff of design specialists, state-of-the-art engineering processes and superior customer service all backed by a half-century of experience providing a wide variety of creative solutions for the quality and value conscious customer. This dedication to excellence is evident in our commitment to achieve ISO 9002 certification throughout our manufacturing facilities across the nation.

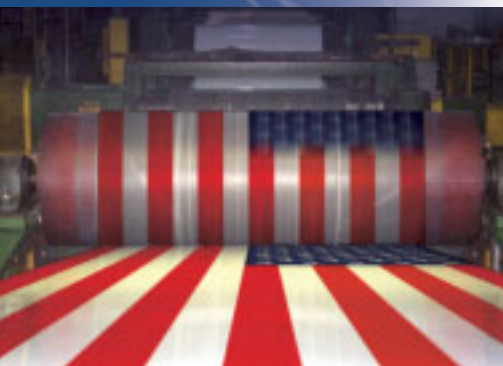

■ Laminated Products

Amerimax Laminated Products utilizes the latest technology to produce a wide variety of laminated products. Our capabilities include full CNC routing, roll coat adhesive application for consistent bond lines and continuous processing including automated material handling. Our seasoned professionals are also skilled in bonding a variety of materials including plastics, fiberglass, wood, aluminum, steel, foam and fabric. Our production capabilities, materials know-how and engineering expertise ensure that your laminated product challenges have answers at Amerimax.

■ Coil Coated Products

Amerimax Coated Products has extensive knowledge in coating systems and coil processing that enables us to meet a full range of coil coating requirements for a variety of industries with different end-use applications. Our ability to match specific custom colors on both large and small orders sets us apart from the rest and ensures your coating requirements are fully satisfied. Our plants are equipped for single and multiple coating systems, precision painted graphics, in-line embossing, coil slitting and cut-to-length services, all performed within our fully automated facilities. With strategically located coating lines in Anaheim, California and Helena, Arkansas, Amerimax delivers nationwide coverage and convenience.

■ **Patio Cover Systems**

Amerimax offers the full spectrum of patio cover systems, which includes our exclusive Alumawood™ open lattice and solid cover shade structures, along with our traditional patio covers, awnings, and carports. Each component is manufactured from structural grade aluminum alloys and finished with a high performance coating system offered in a variety of colors and backed by a Limited Lifetime Warranty. Each patio cover system is designed to assemble with flawless fit and meet stringent specifications backed by I.C.B.O. engineering. Every design detail has been carefully considered to enhance the aesthetic appeal and the natural wood appearance. The Amerimax name has stood for quality, value and innovation for many years – when it comes to quality, beauty, and durability, no one has you covered like Amerimax.

■ **Fabricated Metal**

Amerimax specializes in fabricated metal solutions for any application, in any industry, customized to your specifications. Our capabilities include slitting, roll forming, cut-to-length, shearing, bending, custom break work and edge treatments. Our products include aluminum sidewalls and roofing systems, roll formed tubes, steel siding, and exterior trim accessories including fascias and soffits. Amerimax is the leading supplier of exterior cladding to a variety of original equipment manufacturers, but our expertise extends beyond the routine. We strive to exceed customer expectations by innovating with you to develop the right product and process that is unique and provides lasting value.

■ **Vinyl Windows**

Amerimax leads the way in custom replacement vinyl windows with high style, low maintenance and superior energy efficiency. We use the most advanced materials, including specially compounded, lead-free, non-toxic PVC, and proprietary insulated Ameriglass™. Our manufacturing process employs warm-edge technology, thermal fusion welding and multi-chambered heavy wall extrusions. Our complete line of custom manufactured products includes all popular window styles, plus special shapes, Bay and Bow windows, French style and Sliding patio doors.

Reliable Distribution Systems

Amerimax serves the United States and Canada with thirteen strategically located facilities to meet production demands on a timely basis, wherever you do business. With nationwide distribution and our own delivery fleet, we are ready to handle projects in all regions throughout the nation.
