

Amerimax
LAMINATED PRODUCTS, INC.

Your Resource for Laminated Composite Wall Products

AMERIMAX LAMINATES MATERIALS USED IN THE MANUFACTURING OF:

- Recreational vehicles
- Residential and commercial buildings
- Insulation and acoustical applications
- Modular structures
- Storage units
- Retail and trade show displays
- Truck trailers and truck bodies
- Watercraft

Amerimax implements a variety of technological advances to ensure accurate, reliable manufacturing for a wide range of industries and applications.

Wiring installed in pre-routed channels for easy hook-up upon delivery.

Overhead laser projection system generates full scale laser images to improve accuracy of assembly and consistency between components.

Many types of materials are available for the construction of composite panels.

Whatever the application, Amerimax has the bonding expertise!

Call Amerimax today 800-448-4033.

Plant Capabilities and Specifications

- Automated CNC routing systems
- Overhead laser guiding system
- CAD design department
- Lamination capabilities up to 110" wide and 50' long
- Automated material handling
- On-site quality assurance lab
- Ability to produce multiple bond line products

In-Line Capabilities

AMERIMAX CAN:

- Slit and cut coiled material to length
- Apply protective release film to all laminated materials
- Cut finished products to multiple widths

Reactive Hot Melt Adhesive System

- 100% polyurethane reactive hot melt
- Roll coating application provides 100% adhesive coverage for a consistent bond line
- Environmentally friendly – no V.O. C. content
- High speed coating process provides high volume, low cost process capabilities for a variety of materials
- Reactive Hot Melt Technology works with a wide variety of materials

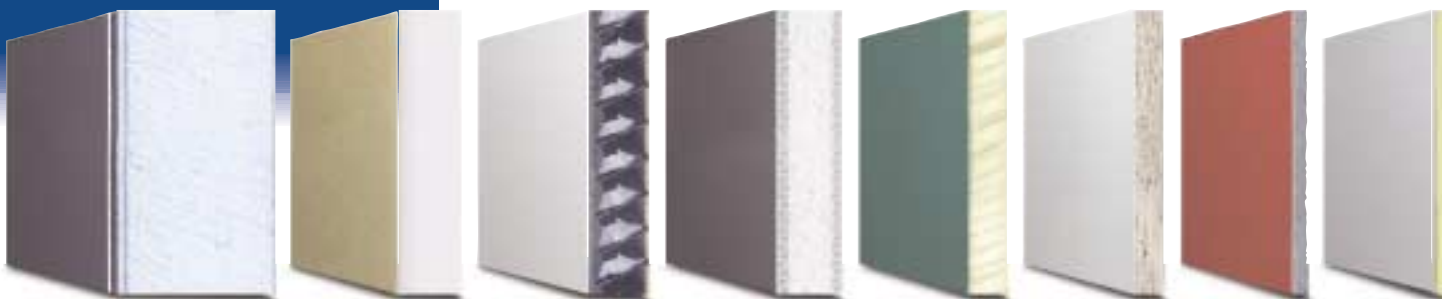

The nip roll press technique guarantees a permanent bond.

Amerimax's centrally located 97,000 square foot facility is designed for the efficient flow of material through the lamination process to provide on-time production and delivery.

Composite Panels

A variety of materials are available for the construction of composite panels. Contact us with your specific requirements.

You can depend on Amerimax Laminated Products, Inc. for the highest level of quality, service, value and on-time delivery. We are dedicated to providing our customers with solutions to all of their lamination product needs. **Contact Amerimax today** at **800-448-4033** or **inquiries@amerimaxbp.com** for product specifications and additional information.
